Words from John

Namaste!

Happy New Year! As you know 2019 will be our 10th anniversary year and we are preparing a schedule of fund raising events. As a small charity we rely entirely upon these events and I urge you to support them if you can. Better still why not make an impactful new year resolution and form a local yak pak and organise an event yourself. With the end of Monsoon season in Nepal we have had a very active Q4 on the ground and the foundations are well and truly laid in our 2nd district. We now support twenty schools. Thanks to your efforts we will have more measurable impact in the year ahead. On behalf of Trustees, the communities and the children I wish you a healthy & prosperous 2019.

John
CLEVER CHILDREN, CLEVER TEACHING!

We are delighted to announce that the three computer labs are open in Tandrang. His unique concept provides content rich laptops in a managed environment and introduces children and teachers to using technology as an aid to learning in a creative and engaging way. We continue to seek sponsors for this high impact program.

Getting creative in Bandipur

The Tring Yak Pak completed their Annapurna challenge and visited the schools in Bandipur their efforts will support. While there they renovated a school and installed the first of six new kindergartens. Work has already commenced on 6 new creative classrooms.

NEW SCHOOL

We commenced the laying of foundations for the new Jal Devi primary school. The school when completed will cater to 150 students and will be equipped with or unique kindergarten and creative classrooms. We are scheduled to open in March 2019.
